PharmD professional with hands-on experience **in pharmacovigilance and drug safety** at Parexel, complemented by clinical pharmacy training in a tertiary-care hospital. Experienced in **ICSR processing, case triage, MedDRA coding, safety narrative writing, medical assessment, literature surveillance, case validation, quality review, and regulatory safety data processing**. Proficient in **Oracle Argus Safety, PubMed, and Embase**, with experience evaluating safety information from literature and regulatory sources including **EMA and MHRA**. Strong clinical foundation in pharmacotherapy, medication safety, antimicrobial stewardship, scientific literature evaluation, and evidence-based documentation.

Experience

06/2024 - 05/2025
Clinical Pharmacist Intern (06/2024- 05/2025)
Livasa Hospital, Mohali (A unit of Ivy Hospital Pvt. Ltd.)

- Supported **patient medication** history collection, documentation, and treatment plan coordination.
- Participated in **multidisciplinary ward rounds** with physicians and healthcare teams across multiple departments.
- Reviewed **medication regimens** and monitored patient outcomes.
- Assisted in maintaining accurate **clinical records and documentation**.
- Supported **antimicrobial stewardship** initiatives through a therapy review.
- Assisted healthcare professionals in providing compassionate patient-centered care.
- Observed patient behaviors and clinical progress during hospital rounds.
- Communicated effectively with patients and caregivers to support treatment plans.

05/2025 – 05/2026
Drug Safety Associate / Patient Safety Associate
Parexel International Pvt. Ltd. Mohali, Punjab, India

- Worked in major Projects like **Sanofi Pharmaceuticals -** Contributed to **pharmacovigilance projects for Sanofi** by performing ICSR processing, medical coding, case validation, quality review, and safety database management in compliance with global regulatory requirements.
- Ensured data accuracy and compliance using the **Argus Safety database**.
- Contributed to literature surveillance activities identifying reportable adverse events from **PubMed, Embase**, and conference abstracts.
- Processed and evaluated 120+ ICSRs monthly from **literature sources** and regulatory bodies, including **EMA and MHRA**.
- Applied **MedDRA coding** to SAEs and AEs, indications, and medical history, supporting accurate and compliant safety-data processing.
- Managed confidential patient and safety information in accordance with applicable data privacy and confidentiality requirements.
- Applied **clinical knowledge from PharmD training** to evaluate causality, seriousness, and expectedness of adverse drug reactions during case processing.
- **Triaged** incoming safety reports from spontaneous, literature, and regulatory sources to assess validity and reporting priority.
- **Narrative Writing**: Authored clear, concise, and medically cohesive case narratives summarizing the adverse event for medical review.

07/2026 - 09/2026
Behavior Technician

Amergis Staffing agency, San Jose, CA, USA

- Provided one-on-one support to students by implementing individualized behavioral and educational strategies under professional supervision.
- Monitored student behavior and progress and maintained accurate documentation of observations.
